

Learn2Change - Conference on Global Dialogue for Global Learning

10.-14.09.2017

Internationales Haus Sonnenberg, Clausthaler Str. 11, 37444 St. Andreasberg

**We like to invite you to the second conference of the
“Learn2Change - Network of educational activists”**

*How do we want to live today and in the future?
Which global and local challenges are we facing?
Which role does education play for a societal transformation?*

These are questions the Learn2Change–Global Network of Educational Activists aims to respond to by global exchange and mutual learning with educational activists from all over the world. Be part of it!

Invitation to the second conference of the Learn2Change-Network

In June 2015 the first Learn2Change-conference took place in Loccum, Germany. Since then the network kept working and a lot of activities happened. Now the time has come for a second conference. From 10th to 14th of September 2017, we will have the unique chance to **discuss our questions, share our perspectives and develop ideas for (concrete) actions for sustainable living in our diverse societies** with about 60 participants from all over the world.

During this conference we invite the participants...

... to have a closer look on concepts and believes that are important for our work like mother earth's rights, Buen Vivir, Global Citizenship, Civic action and Engagement, Youth Empowerment and more.

... to learn from each other and to exchange and develop learning methods and tools.

... to strengthen the network and to develop and consolidate it together with us.

With financial support of Engagement Global im Auftrag des BMZ, Niedersächsischen Bingo-Umweltstiftung, Katholischer Fonds and Evangelischer Kirchlicher Entwicklungsdienst

Let's shape the conference altogether!

We will develop and shape the conference's content and outcome in a participative way – considering the above drafted questions. We therefore choose a very open conference format, involving the participant as experts.

The conference will be facilitated by

Benjamin Kafka and Dominique Pannke, Impuls - Agentur für angewandte Utopien

The programme of the conference

For a joint start, we will work on specific topics, hearing back from working groups of the Learn2change network during ***Monday and Tuesday morning***. What is the current practice of communicating in the Learn2Change- network? What online communication tools and platforms might support us? What common ground do we sense? Where do we have diverse viewpoints? What experiences do we have, what good practice do we see emerging?

Tuesday afternoon and Wednesday morning, we will provide an open space to share good educational practice and develop new ideas on methods and tools for global learning.

Wednesday afternoon there will be organized an open dialogue format to address key issues for a global educational network.

Thursday, next steps for working together in a global educational network will be developed: What new ideas are taking shape? What is it that we see when we put the different pieces together?

Every day, a guided reflection at the end of the afternoon session in order to reflect on personal learnings, experience and insights every day and sharing some of these will take place. Free offers by participants every morning, like time for yoga, meditation offers, and nature walks etc. are welcome in the morning and during the whole day.

Registration – Make sure you don't miss this chance!

You can register with the attached registration form until 15th of August 2017. We only have room for 60 participants, so don't wait too long with the decision.
